We have been providing solar power systems to schools, hospitals, community halls, churches and homes all over the Marshall Islands. On many of these islands there is no central power grid, and therefore small-scale locally generated power systems greatly benefit the local population by minimizing the use of expensive imported fuel.

How much does it cost to install a 15kW solar system? As of January 2022, the average cost of a 15kW solar system in the U.S. is \$41,500, which reduces to \$30,747 after applying the 26% federal solar tax credit (excluding any additional state rebates or incentives). How much power will a 15kW solar system produce?

Compare price and performance of the Top Brands to find the best 15 kW solar system with up to 30 year warranty. Buy the lowest cost 15kW solar kit priced from \$1.13 to \$2.00 per watt with the latest, most powerful solar panels, module optimizers, or micro-inverters.
