

Energy storage updatel | Marshall Islands . In late 2021, Photon Energy N.V. secured 1,200 hectares of land in South Australia to develop one of the world's largest solar energy storage project. Photon will develop a solar generation capacity of 300 MW using RayGen's solar technology with a grid connection capacity of 150 MW.

Recently, SINOSOAR successfully attained a Solar on-Grid system project in the Marshall Islands, particularly for a Major Supermarket in Majuro. The project aims to build a roof mounted PV system on top of the Supermarket After the completion of this project, it will largely reduce the Electricity Bills for the Supermarket.
