

Is there a solar farm in Brunei?

Many of you might not know this, but we do have our own solar farm right here in Brunei and it's been in operation since 2010. This B\$20 million solar farm is named 'Tenaga Suria Brunei (TSB)' and is located in Seria. With a nominal capacity of 1.2 kWp, the farm covers an area of about 12,000 sq meters with exactly 9,234 pieces of solar panels!

What are the major solar installations in Brunei?

Major active solar installations in Brunei include the country's first, Tenaga Suria Brunei, launched in 2010 with a capacity of 1.2 MWp, and Brunei Shell Petroleum's 3.3 MWp solar plant, launched in 2021 to supply power to its headquarters. Both plants have plans for further expansion.

Does Brunei have a sustainable future?

Brunei is targeting 30% renewable energy in total power generation mix by 2035, with 200 MWp of solar energy by 2025. The launch event also saw the release of Hengyi's 2023 ESG Report, which highlights their progress in environmental sustainability, social responsibility, and governance.

Why is BPC partnering with Brunei?

The project also allows BPC to develop in-house expertise on the implementation of Solar PV technology, which will provide a foundation for BPC's further involvement in larger scale solar (LSS) PV projects within Brunei.

This B\$20 million solar farm is named "Tenaga Suria Brunei (TSB)" and is located in Seria. With a nominal capacity of 1.2 kWp, the farm covers an area of about 12,000 sq meters with exactly 9,234 pieces of solar ...

Guidebook for Solar PV Rooftop and Net-metering Programme serves as a reference or guidance for the public who wish to explore the opportunities in producing their own Renewable Energy on their own. The Guidebook entails general information on how to start planning for your solar PV system, how to enroll in the Net-metering Programme, estimated

A sample solar PV panel displayed during the Project SINAR launched held at Hengyi's headquarters on PMB. Brunei is targeting 30% renewable energy in total power generation mix by 2035, with 200 MWp of ...

BIBD is now the first financial institution in Bandar Seri Begawan to install rooftop solar panels, showcasing BIBD's commitment to a greener and more resilient future for Brunei. The solar PV system will generate enough renewable energy to significantly reduce the bank's carbon dioxide emissions by approximately 50 metric tons annually ...

BPC proudly announce the commencement of the 1st solar PV system project to be made live in December

2020. The in-house pilot project highlights BPC's first endeavour to support the Brunei Government's 2035 vision of achieving a ...

BPC proudly announce the commencement of the 1st solar PV system project to be made live in December 2020. The in-house pilot project highlights BPC's first endeavour to support the Brunei Government's 2035 vision of achieving a substantial contribution by renewable energy sources to Brunei's energy demand.

Since our establishment is 2015, we have helped clients evaluate and choose the optimal size of solar photovoltaic systems in accordance to their electrical usage and budget. Our range of services include consultation, design, procurement up to the final installation of solar photovoltaic systems and lightings.

We provide consultation, design, procurement and installation services for solar photovoltaic systems and lightings. Our client includes the government of Brunei Darussalam, private companies and individuals (home owners).

Celebrate a brighter, greener future with Megawatt Solar Solutions Sdn Bhd - your solar panel installation experts. We provide top-tier Residential, & Commercial Solutions, combining sustainability, savings, and efficiency in every project.
