

Where can I find more information about Franklin WH energy storage?

To learn more, visit [About FranklinWH](#) FranklinWH Energy Storage is the manufacturer of the Franklin Home Power system. FranklinWH is a research-driven company focused on next-generation residential energy management and storage solutions.

Is the Franklin home power system a legitimate 'whole home' backup system?

In 2022, FranklinWH unveiled its flagship product - the Franklin Home Power (FHP) system - and immediately piqued the interest of installers and homeowners searching for a legitimate "whole home" backup solution. In this article, we'll put the FranklinWH Home Power system under the microscope, focusing especially on:

Could franklinwh double its battery supply chain?

FranklinWH also reports a stable battery cell supply chain. According to an April webinar with Philip Shen of Roth Capital Advisors, the company could supply 30-40k units and "could double this capacity in the next six months."

Is franklinwh a brighter energy-independent company?

"We are committed to a brighter, energy-independent future, driven by a steady pipeline of product innovations," said Gary Lam, Co-Founder and CEO of FranklinWH.

At the heart of the aPower 2's appeal is its impressive 15 kWh capacity. This substantial energy storage capability allows homeowners to store more solar energy or off-peak grid power, providing extended backup during outages or ...

At the heart of the aPower 2's appeal is its impressive 15 kWh capacity. This substantial energy storage capability allows homeowners to store more solar energy or off-peak grid power, providing extended backup during outages or enabling longer periods of energy independence.

Energy Storage. Store your solar or grid energy and use it as a backup in case of brownouts and blackouts, or to power your home at night. Energy Freedom. Manage your energy sources to intelligently sustain home consumption and reduce your dependence on the grid. Energy Savings

FranklinWH is a research-driven company focused on next-generation residential energy management and storage solution. Founded in 2019, headquartered in the San Francisco Bay Area, and funded by Sequoia Capital, FranklinWH's team has decades of experience in energy systems, from design, through manufacturing, to sales and installation.

FHP is a whole-home energy management solution that integrates solar, battery, grid, and generator power

sources and manages them to optimize the safety, reliability and efficiency of a home's energy needs.

FranklinWH solution is an open and robust home energy ecosystem that integrates solar, battery, grid, generator and EV power sources, providing power backup during outages, peak periods, or even when you want to be off-grid 24/7.

The Franklin Home Power system fuses a robust duo: The aPower battery with the highest AC capacity on the market, alongside the aGate with the industry's most intelligent controls. The aPower lithium iron phosphate battery and aGate smart control system work in concert to provide uniquely advanced storage.
