

The project at Le Port will combine a 9 MWp power plant with a 9 MWh Intensium Max+ 20E containerized battery system in the Consortium's turnkey contract for a complete energy production and storage scheme. Delivery is planned during the first half of the year.

The Inertia Drive technology is based on the flywheel mechanical battery concept that stores kinetic energy in the form of a rotating mass. Our innovations focus on design, assembly and manufacturing process.

The Corsica Sole-Crater - Battery Energy Storage System is a 5,000kW energy storage project located in Crater, Reunion, France. The rated storage capacity of the project is 10,000kWh. The project was announced in 2018 and will be commissioned in 2021.

Saft is the world leader in space and defence batteries with its Li-ion technologies which are also being deployed in the energy storage, transportation and telecommunication markets.

French battery company Saft will lead a consortium building a photovoltaic (PV) power plant combined with a lithium-ion (Li-ion) battery energy storage system on the island of La Reunion,...

These intelligent systems make it possible to maximize the energy injected into the grid, limit penalties (in the event of non-compliance with the production template) and slow down the aging of storage batteries.

The Indian Ocean island is boosting renewable capacity by adding the Battery Energy Storage System (BESS) to its Janar Station. 5 MW battery with a storage capacity of 2.5 MWh. It will store renewable energy, meaning more ...

Near Saint-Denis, on Reunion island, a new battery regeneration centre has just been opened. On this island of the Mascareignes archipelago, the dynamic economy offers great opportunities in terms of batteries.

U.S.-based company Torus just signed a deal to supply the Gardner Group, a commercial real estate firm, with nearly 26 MWh of energy storage using Torus's hybrid flywheel and battery energy storage systems (BESS). FESS and BESS pair well because they have complementary strengths: FESS is great for short-term, reactive storage, while ...
