

A 110MW/440MWh battery storage project in New York has been given the green light by regulators, ahead of the launch of tenders which could create a significant market opportunity in the state. The New York State Public Service Commission (PSC) gave its approval earlier this month for the battery energy storage system (BESS) to be built in ...

South Sudan's utility recently completed technical evaluations for a 20-megawatt solar farm and 35 megawatt-hour battery storage system planned outside of Juba. The African Export-Import Bank is financing the \$45 ...

Battery storage costs have changed rapidly over the past decade. In 2016, the National Renewable Energy Laboratory (NREL) published a set of cost projections for utility-scale lithium-ion batteries (Cole et al. 2016). Those 2016 projections relied heavily on electric vehicle

Development approvals have been granted for New Zealand's biggest planned battery energy storage system (BESS) to date. The 100MW battery storage project is in development by electricity generator and retailer Meridian Energy at Ruakaka on New Zealand's North Island. The site is adjacent to Marsden Point, a former oil refinery.

Georgia Power, a subsidiary of Southern Company (NYSE: SO), has energized its 65-MW/260-MWh Mossy Branch Battery Energy Storage System (BESS), aimed at enhancing grid resilience across Georgia. The newly operational facility, located near Columbus in Talbot County, will provide four hours of storage capacity and operate as a standalone unit ...

There is currently more than 13.5GW of battery storage projects in the pipeline, according to Solar Media Market Research's UK Battery Storage Project Database Report. There is 1.3GW ready to build, 5.7GW with planning permission and a further 6.5GW proposed. This story first appeared on our UK solar site, Solar Power Portal.

The Poway City Council has approved the construction of a 300-megawatt battery energy storage system facility on 10 acres in the Poway Business Park. The proposed Nighthawk Energy Storage Project will help the local power grid capture solar and wind energy, then store the power in batteries and discharge it when needed most, said Josh Coon ...

A 100MW battery storage facility in Co. Offaly in Ireland has this week been energised, having been developed as part of a partnership between local developer Lumcloon Energy and South Korea's Hanwha Group. ...

One of Broad Reach Power's earlier Texas projects under construction. Image: Broad Reach Power. Two 100MW battery energy storage system (BESS) projects in Texas have been brought online by independent power producer (IPP) Broad Reach Power, for participation in the Electricity Reliability Council of Texas (ERCOT) market.

Root-Power is the specialised battery energy storage system (BESS) owner-operator offshoot of YLEM Energy, which has a focus on business energy generation. It launched in July this year, with a pipeline of 40 projects ranging in size from 11MW to 100MW .

A 2.5MW / 4MWh demonstration system using novel energy storage technology based on a "carbon dioxide battery" has begun construction in Sardinia, Italy. The CO<sub>2</sub> battery technology has been developed by Energy Dome, a Milan-headquartered company founded by technologist and entrepreneur Claudio Spadacini and incorporated two years ago.

Project partners Canadian Solar and Axium Infrastructure have begun the operation of Crimson Energy Storage, a large-scale battery energy storage system (BESS) in Riverside County, California. California's Governor Gavin Newsom was among those celebrating the 350MW/1,400MWh project's inauguration.

A 70MW battery storage project being developed by Ingrid Capacity, set to be the largest in the country when online in H1 2024. Image: Ingrid Capacity. Some 100-200MW of grid-scale ...

Swiss investment fund and project development vehicle MW Storage has contracted Fluence to supply and integrate a 20MW battery storage asset in Finland. The project will be a 1-hour duration (20MWh) battery energy storage system (BESS) near Mäntsälä municipality in southern Finland's Uusimaa region, and marks the third collaboration ...

Winners of the procurement with BESS bids include Boralex, a Toronto Stock Exchange-listed renewable energy developer, with two projects: Hagersville Battery Energy Storage Park, a 300MW, 4-hour duration (1,200MWh) project in Ontario's Haldimand County and Tilbury Battery Storage Project, which will be a 80MW/320MWh system in the Municipality ...

Moreover, test and field data of large-scale BESS is not widely available. Calendar aging of BESS was investigated by Kubiak et al. [14] for a 250 kW/500 kWh system. Field test for frequency regulation services were performed with a 1.6 MW/400 kWh BESS by Swierczynski et al. [15]. The impact on a 1 MW system of different applications was ...
