## SOLAR PRO. MIt energy Niue

This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025. Just over a month ago, the Prime Minister of New Zealand, Rt Hon. Christopher Luxon announced a substantial investment of \$20.5 million into renewable energy initiatives in Niue.

With an investment of USD 750,000, this collaboration aims to significantly advance Niue's energy infrastructure toward its 2025 goals. The Niue Natural Grid project is a commitment to the island's long-term prosperity, emphasizing education and economic growth.

This Niue Strategic Energy Road Map 2015-2025 is government's effort, at the national level, to work with its national and regional partners and the global community to unlock the development potential of Niue and to contribute to addressing the challenges of climate change. This roadmap represents a whole-of-government approach to ...

developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity utilisation is calculated as annual generation divided by year-end capacity x 8,760h/year. Avoided

The team presented a robust strategy for Niue Energy Unlimited and the outcome of the Niue Natural Grid, with the aim of achieving a future where energy is not only sustainable but also ensures the financial and social independence of Niue.
