

Is Moldova's biggest solar park connected to the grid?

Moldova's biggest solar park is connected to the grid now. An outstanding project - not only for Iqony Sens but also for Moldova. Covering an area of 2.5 hectare the 1 MWp solar park is strengthening Moldova's energy security.

How many solar power plants are there in Moldova?

According to the Ministry of Moldova in the whole country there are currently 52PV-power plants of different sizes with a total capacity of 2.93 MW, which means this new solar park in Bacioi village makes a significant contribution to the increasing green energy supply.

What is the electricity system like in Moldova?

The electricity system in Moldova is characterised by its reliance on imports. In 2020, of its 4.4 TWh of electricity demand, 81% was supplied by imports, either from Ukraine (4%) or from the Cuciurgani-Moldavskaya GRES (MGRES) gas-fired power plant (77%) located in the breakaway region of Transnistria.

Who built a solar park in Moldova?

The project was commissioned by the Italian companies Fly Ren Energy Group and Consulcesi Tech and built by Iqony Sens (formerly known as GILDEMEISTER energy solutions). Chiril Gaburici, the Minister of Economy and Infrastructure is very enthusiastic about the project: "This solar park is an important milestone for Moldova's energy sector.

Why should Moldova invest in a solar park?

Chiril Gaburici, the Minister of Economy and Infrastructure is very enthusiastic about the project: "This solar park is an important milestone for Moldova's energy sector. It reduces our dependency on imported energy. Furthermore, the production of green energy is a clear commitment to the environment."

What is electricity demand in Moldova?

Electricity demand in Moldova is characterised by a winter peak demand. The typical load variation in the winter season, based on 2019 operational data is between a minimum base load of 540 MW and a maximum peak load of 950 MW, while in the summer, it varies from a minimum of 480 MW and a peak load of 800 MW.

The Institute for European Policies and Reforms (IPRE), in partnership with the Ministry of Economy and Infrastructure, the EU4Environment and EU4Climate programs in Moldova, the UNDP / GEF - Green City Lab project, Privesc and with the support of the Hanns Seidel Foundation, organized on Thursday, November 5, 2020, the tenth ...
