The present holding Company, GALAXY ENERGY GROUP LTD. was incorporated in the British Virgin Islands in April 2000 to spin-off the Oil trading division into a separate entity. During the mid-nineties the Group has moved to the present headquarters to in the Principality of Monaco. Since then, the core management has remained largely unchanged.

On 23 October 2018, the Prince's Government launched the Bâtiments Durables Méditerranéens de Monaco (Sustainable Mediterranean Buildings of Monaco, BD2M) initiative in partnership with EnvirobatBDM.

In Monaco, it is possible to capture the energy of the sun in two ways: using photovoltaic panels, which transform sunlight into electricity, and with thermal panels, which use the energy produced by the sun's rays to heat water.

Amigo energy customer service ate great... Amigo energy customer service ate great and I feel sorry for them because I know they have to deal with angry frustrated clients. Amigo energy as a company is a scam! I don't trust that they bill based on individual usage, they estimate based on the the weather and bill ridiculous amounts of money.

Monaco: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
