

Who provided the power data for the solar PV project in Montserrat?

The power data was kindly provided by the Government of Montserrat. Figure 16: Placard for the 250kW solar PV project in Montserrat. Renewable Energy planning in Montserrat

Why do we need solar panels in Montserrat?

The use of Solar Panels meets one of the Governments priority needs which is to improve energy security by slowly transitioning to renewable energy. The incorporation of Solar into the Grid on Montserrat, resulted in a 13% renewable energy input on the grid, which is 3% above the European Union's key performance indicator (KPI) of 10% .

What is Montserrat's energy policy?

The first Energy Policy was approved in 2008 by the Government of Montserrat. The policy was then revised and updated in 2016 to include Government incentives and to update the policy with appropriate targets. The new Energy Policy (The Power to Change) that is currently being implemented runs from 2016 to 2030. Progress made so far includes: -

Does re-sat work in Montserrat?

The performance of RE-SAT was tested by creating a scenario of the current renewable energy installations in Montserrat (250kW Solar PV systems (Phase 1) in Brades). Renewable Energy planning in Montserrat Institute for Environmental Analytics    33              October 2021

Who is involved in the re-sat project in Montserrat?

The RE-SAT project (Phase 2) in Montserrat acknowledges the invaluable assistance from the Montserrat Ministry for Communications, Work, Energy and Labour (MCWEL), the GIS unit at the Ministry of Agriculture, Trade, Lands, Housing and the Environment; the Montserrat Utilities Limited (MUL), and the Statistics Department.

Can wind energy be implemented in Montserrat?

Although wind energy has not yet been fully explored in Montserrat, a desktop study using RE-SAT wind resource maps was conducted to determine suitable locations for the implementation of wind energy. The outcome of this study was included in their first Environmental Statistics Compendium in Montserrat, which was published in 2020.

This system helped bring Montserrat to 50 percent renewable energy in terms of installed capacity. We spoke with Owen Lewis, project operations manager for RMI's Islands Energy Program, about what this system means for the island.

Incidencia del Reglamento General de Protección de Datos en los parlamentos. Montserrat Auzmendi
