

Moroccan scientist and engineer Rachid Yazami has emphasized Morocco's "significant" potential in the lithium battery industry, including the production and subsequent export of these...

The key to Morocco's rise as a green mobility manufacturing giant will be expanding its automotive ecosystem to include local manufacture of Li-ion batteries, which represent 30% to 40% of the cost of the average EV.

China-based BTR Group, a manufacturer of lithium-ion battery materials, announced a strategic investment in Morocco, marking a significant step forward in its international expansion.

Gotion High-Tech is set to build a lithium-ion battery plant costing up to \$6.3 billion that will produce batteries that generate up to 100 gigawatt hours (GWh) of power a year, Morocco's Agency for the Development of Investment and Exports said on Thursday.

4 ???· Battery industry giants, including South Korea's LG and China's Gotion, have announced three major electric vehicle battery plants in Morocco in recent months. But the sourcing of their critical metals remains a major unknown factor.

3 ???· Chinese battery maker Gotion has announced a USD 2.6 billion plan to build battery factories in Slovakia and Morocco. The total investment in the Slovakian project is expected to be around 1.3 billion euros, with an annual capacity of 20 GWh of lithium batteries. The Slovakian plant will be built by Gotion InoBat Batteries (GIB) ...

The Kenitra gigafactory project will receive an initial investment of 13 billion dirhams (\$ 1.3 Billion), with the first phase focused on producing 20 GWh of lithium-ion batteries and cathode...

2 ???· Chinese company Guoxuan High-Tech Co. has announced plans to establish a high-performance lithium battery manufacturing plant in Morocco, with an annual production capacity of 20 gigawatt-hours. The project, set to support the electric vehicle (EV) industry, is expected to take five years to complete, Chinese media reported on Friday.
