Tamesol's PV solar panels are designed to harness Morocco's abundant sunshine, providing high efficiency and durability suited to the local climate. This makes them an optimal choice for businesses seeking sustainable energy solutions in Morocco.

BIPV solar modules, or Building Integrated Photovoltaics, are a revolutionary way to generate renewable energy and improve the efficiency of buildings. As the first company in Morocco to offer BIPV, SUNQ is proud to work with leading manufacturers from Germany to bring these cutting-edge products to our clients.

The installation of photovoltaic panels in Morocco for the electricity supply of his villa, hotel complex or business is an advantageous solution on many points. It enables electricity to be produced in an environmentally friendly way and ...

The installation of photovoltaic panels in Morocco for the electricity supply of his villa, hotel complex or business is an advantageous solution on many points. It enables electricity to be produced in an environmentally friendly way and makes it possible to make significant savings.

The Morocco Solar Home Systems (SHS) project is a Masdar-led initiative in partnership with Morocco's Office National de l'Electricit&#233; et de l'Eau Potable (ONEE). It provides 19,438 solar home systems in over 1,000 villages in the Kingdom of Morocco.
