NEC Energy Solutions has secured a contract from GIGA Storage for a 12MW energy storage project in the Netherlands. NEC will supply the battery, while GIGA Storage will own and manage the system and Windnet will own the local smart grid. Go deeper with GlobalData. Reports.

Data on battery storage tends to be non-uniform and lacking in consistency across reporting entities necessitating a need for better reporting mechanisms for BESS data. Because battery storage is an emerging technology, the development of utility-scale battery storage has lagged the integration of renewable resources.

Whether NEC"s diverse line of storage disk array solutions or our award-winning distributed grid storage platform, we enable long-term data retention through performance scalability, maximized capacity and large-scale storage ...
