

Who is adelsystem?

A technological path has been made, and our vision has been rewarded by the development of market needs. Established in 1991, ADELSystem produces linear and switch-mode power supply units. ADELSystem is recognized as one of the world's foremost manufacturers of industrial power supplies, DC UPS, and intelligent battery chargers.

Did Namibia inherit a skewed land distribution system?

**ABSTRACT** It is trite that at independence in 1990 Namibia inherited a skewed land distribution system in favour of a white minority, which necessitated the newly elected government to take drastic steps to redress the historical injustices pertaining to land ownership.

What makes adelsystem unique?

In summary, AdelSystem's blend of innovation, quality, and customer-focused service positions it as a key player in the global market for power supply technologies, servicing a wide range of industrial sectors with its sophisticated and sustainable products. Can't Find the Product You Want?

What is the history of Namibia?

Namibia's history is marked by the loss of land and land theft perpetrated by the white settler colonists.

Who were the first German colonists in Namibia?

Consulting was provided by Lily Mafela, Kwame Osei Kwarteng and Reginald Kirey. The first German colonists in Namibia, like Adolf Lüderitz, acquired land through contracts with local chiefs. But these contracts were often riddled with deception.

What makes adelsystem a sustainable company?

AdelSystem places a strong emphasis on sustainability and energy efficiency, reflecting a commitment to environmentally conscious practices in their product designs. This approach not only serves a diverse global clientele but also aligns with the growing demand for sustainable and energy-efficient solutions across various industries.
