

Who is Namibia Energy Corporation?

Namibia Energy Corporation (NEC) is a dynamic global oil and gas industry player founded by the renowned Brazilian geologist Dr. Marcio Rocha Mello, PhD. Committed to innovation and excellence, NEC is dedicated to responsibly explore Namibia's oil resources, focusing on skill and technology transfer to enhance local capabilities.

Who is responsible for electricity in Namibia?

For parties interested in pursuing investment opportunities, the Government of the Republic of Namibia, through the Ministry of Mines and Energy, is responsible for the power sector, and Namibian Power Corporation (NamPower) is responsible for the generation and transmission of electricity.

Where does Namibia's electricity come from?

28% of Namibia's generated electricity come from fossil fuels, while 64% are from hydropower, and about 8% come from renewables. Non-electricity off-grid renewable energy projects include the small/micro wind energy installations used for water pumping, which are very common in Namibia, especially on farms.

What are Namibia's alternative energy sources?

Namibia is left with no option but to look at alternative power generation sources much as the Kudu Gas-to-Power Project and the Epupa Baynes. In Namibia, NamPower buys electricity outside Namibia and sells inside the country and this has enabled them to obtain a better cost structure and readily available power supplies.

How much money does Namibia invest in energy?

The Annex 11: Namibia's energy generation and access situation - financing and investments lists a total investment of 101,426,307 USD by 5 private entities, 2 state-owned entities (largest share by the Development Bank of Namibia) and the micro-medium lender Kongalend.

Where does NamPower supply bulk electricity?

NamPower supplies bulk electricity to Regional Electricity Distributors (REDs), Mines, Farms and Local Authorities (where REDs are not operational) throughout Namibia.

NAMCOR (National Petroleum Corporation of Namibia) is the national oil company of Namibia, with the mission of creating value to all its stakeholders across the oil and gas value chain. Our world-class exploration and production database, and oil license blocks form some of the major attractions to Namibia's hydrocarbon potential.
