

Does Nauru need solar power?

“Now Nauru's power generation mainly relies on diesel. That's expensive and would pollute the environment,” said John Scott, who has been working for the project since 2022. “There is a lot of sunshine here and it's good for solar power. I believe electricity supply here will be much better when the project is completed,” Scott told Xinhua.

Where is Nuru solar based?

Nuru deployed Congo's first solar-based mini-grid in 2017 and has a 1.3MW solar hybrid site in Goma, the largest off-grid mini-grid in sub-Saharan Africa. Another solar hybrid site in Beni and two in the oriental province (Tadu & Faradje). Nuru was first established under the name Kivu Green Energy in August 2015.

Will Nauru's largest harbor be redeveloped in 2025?

On top of building the power project, China Harbour Engineering Company Ltd is also undertaking the redevelopment of Nauru's largest harbor, Aiwo Harbor. Starting in 2019, the project to be completed in 2025 includes harbor dredging and the construction of a new wharf, a desalination system and a container yard, among other facilities.
