

To meet the broad range of power range, the first eco hybrid power station by AEG Power Solutions has now started working. The complete integrated solution was part of a contract signed with OPT (Office des Postes & Telecommunications) in New Caledonia last year.

AEG Power Solutions" New Caledonian ecopx hybrid power station is now fully operational. The complete integrated solution was part of a contract signed with OPT (Office des Postes & Telecommunications) in New Caledonia last year. It combines solar and wind energy with batteries, and a genset as emergency back-up.

AEG Power Solutions announces that the first ecopx hybrid power station is now fully operational. The complete integrated solution was part of a contract signed with OPT (Office des Postes ...

The ecopx integrated Hybrid system manages the network site power from end-to-end, offering substantial operating costs reduction, security, reliability and a huge carbon footprint improvement. AEG Power Solutions has received a contract from OPT for another BTS site near Lac de Yate, in the south of the mainland.

AEG Power Solutions announces that the first ecopx hybrid power station is now fully operational. The complete integrated solution was part of a contract signed with OPT (Office des Postes & Telecommunications) in New Caledonia last year. It combines solar and wind energy with batteries, and a genset as emergency back-up.

System solutions from AEG PS are designed to interface with the electrical power grid and to offer power solutions for mission-critical applications in harsh environments, such as utility-scale renewable energy plants, polysilicon manufacturing process, power plants, offshore oil rigs or chemical refineries.

AEG's latest generation of products are made robust by using proven microprocessor controlled thyristor technology to provide high-reliability power supply and battery charging capabilities. Complete modular offshore power solutions. The Protect MIP offers a new way of achieving reliable and cost-efficient protection for all offshore ...

Our Uninterruptible Power Solutions (UPS) protect against mains power issues to ensure safe operation, protect people and reduce the risk of downtime and system failures. From oil and gas and transportation to utilities, nuclear power and other critical infrastructure, we provide rugged, fully reliable electrical power back-up solutions that ...
