

Huawei has launched its industrial and residential smart photovoltaic (PV) system in Ghana, marking a significant step in the development of the new era energy industry. The FusionSolar residential smart PV solution by Huawei offers stable and reliable power, with the capability for seamless switching between on-grid and off-grid power sources.

Melcom Group has collaborated with Societe General Ghana (SG Ghana) to implement a rooftop solar photovoltaic (PV) power system with a capacity of 1.6 megawatts (MW) at its supermall located on the Spintex Road in Accra.

Funded by the International Finance Corporation as part of an all-encompassing USD30 million clean power and water deal with LMI Holdings, the installation will comprise 29,261 solar panels using the latest N-type ...

In the heart of West Africa, Ghana is emerging as a leader in a solar revolution that promises to redefine its energy landscape and pave the way for a sustainable future. This article embarks on a journey through Ghana's ...

Funded by the International Finance Corporation as part of an all-encompassing USD30 million clean power and water deal with LMI Holdings, the installation will comprise 29,261 solar panels using the latest N-type technology across a rooftop area of 92,000m²; of LMI Holdings' IWC Mega-warehouse.

The photovoltaic (PV) solar project involves the installation of 29,252 solar panels featuring the latest N-type technology, covering a rooftop area of 95,000 square metres at the International Warehousing Company Megawarehouse in the Tema Freezone.

The Melcom Group of Companies in partnership with Societe Generale Ghana has launched a Grid-Tie Rooftop Solar PV system, to advance Ghana's transition towards clean energy solutions at the cost of Ghc13 million.

In the heart of West Africa, Ghana is emerging as a leader in a solar revolution that promises to redefine its energy landscape and pave the way for a sustainable future. This article embarks on a journey through Ghana's transformative approach to energy, where the sun's boundless energy is not just an alternative, but a cornerstone of ...

Discover how Helios Solar, in collaboration with LMI Holdings and funded by the IFC, inaugurates Africa's largest solar rooftop project in Ghana's Tema Freezone. The initiative, set to provide 16.82 MW of clean energy, marks a significant milestone in advancing ...

With abundant sunlight throughout the year, Ghana can harness solar energy to meet its growing electricity needs. The deployment of solar energy systems, which include solar panels, inverters, and often batteries, is expanding across the country, from urban centers to rural communities, delivering reliable and affordable electricity.

In rural areas, solar panels have become a beacon of hope, providing consistent electricity to power homes, schools, and businesses. According to a report by Statista, In 2022, Ghana generated 132,000 kilowatt-hours of electricity from solar energy, reflecting a slight increase from the 128,000 kilowatt-hours produced in 2021.

A Ghanaian company, Helios Solar Company (Helios), part of LMI Holdings, is undertaking a massive solar rooftop project that will be the largest in Africa and the second largest in the world.

The photovoltaic (PV) solar project involves the installation of 29,252 solar panels featuring the latest N-type technology, covering a rooftop area of 95,000 square metres at the International Warehousing Company ...
