

Who is Skeleton Technologies?

In addition to cars, Skeleton Technologies provides supercapacitor-based solutions for rail and trams, trucks, bus, and heavy equipment. Skeleton Technologies and Class8 Energy, a Canadian equipment distributor, have signed an EUR11.6 million contract to supply supercapacitor modules to the North American trucking and retail industries.

How much did Skeleton Technologies raise?

"Estonia's Skeleton Technologies raises another EUR108m to scale fast-charging battery tech", sifted. "Skeleton Technologies raises EUR108M in funding round led by Siemens and Marubeni", Tech.eu. 2023-10-13. Retrieved 2023-10-19. "AS Harju Elekter to invest in Skeleton Technologies Group OÜ", Harju Elekter. 2021-07-01. Retrieved 2022-11-07.

Why should you choose Skeleton Technologies ultracapacitors?

Skeleton Technologies' ultracapacitors provide a major fuel saving and will reduce maintenance with a long lifetime. It is also a "Plug & Play" solution adding safety and reliability to the vehicles. We have tested all the leading suppliers on the market and are convinced that Skeleton Technologies has by far the best offer.

How much money does Skeleton Technologies raise to develop EV batteries?

"Skeleton Technologies Receives an Additional EUR51 Million Funding to Scale up Ultracapacitors Production", Lombardo, Tom (2021-07-07). "Skeleton Technologies raises EUR70 million to develop EV batteries and supercapacitors", Charged EVs. Retrieved 2022-11-07. a b Wanat, Zosia (2023-10-13).

What will Siemens do with skeleton?

Siemens will support Skeleton as technology partner with the joint development of a fully automated production line for the new factory and the digitalization of the entire value chain. The two companies also plan to further expand business ties. Leipzig, Germany - 19th July 2022:

Where does skeleton manufacture supercapacitors?

Skeleton will invest 220 million EUR in scaling up its production of supercapacitors in Germany. The company has chosen Markranstädt in Leipzig area to establish its second manufacturing site in Saxony, with SOP expected in 2024.
