

Will Niue build a solar farm?

Niue is seeking about US\$18 million to build a solar farm as part of the island nation's plans to reduce its heavy reliance on fossil fuels. The minister for infrastructure, Dalton Tagelagi says Niue's strategic energy road map sets the ambitious goal of having 80 percent of its power generation coming from renewable energy sources by 2025.

What will New Zealand do with the Niue ocean wide trust?

The project will bring Niue's renewable generation to 80 percent. New Zealand will also commit \$2 million to the Niue Ocean Wide Trust, which aims to develop a blue economy and ensure long-term ocean conservation and climate resilience.

How much of Niue's diesel fuel is used for power generation?

Approximately 69% of diesel fuel imported into Niue is used for power generation - around 800,000 litres. Under the new energy roadmap, Niue has set a goal of 80% renewables by 2025.

This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025. Just over a month ago, the Prime Minister of New Zealand, Rt Hon. Christopher Luxon announced a substantial investment of \$20.5 million into renewable energy initiatives in Niue.

The general functions and position of the Secretary to Government (SOG) are established in Article 63 of the Niue Constitution. The SOG is the permanent head of the Niue Public Service and the Chief Administration officer of the Government of Niue.

unlock the development potential of Niue and to contribute to addressing the challenges of climate change. This roadmap represents a whole-of-government approach to addressing the energy security challenges of Niue, an approach that looks at the entirety of the energy sector - electricity, renewable
