The Commonwealth of the Northern Mariana Islands (CNMI), situated in the Pacific's Philippine Sea, is home to 47,000 residents, with an economy that is heavily dependent on tourism. The energy landscape in CNMI is challenging given its near-total reliance on imported petroleum products for both electricity generation and transportation.

This Strategic Energy Plan (SEP) update provides a road map for the Commonwealth of the Northern Mariana Islands (CNMI) to implement cost-effective energy management solutions, including efficiency/optimization
