

Who is NTR plc?

NTR plc is an Irish renewable energy company founded in 1978. Today, NTR is an investor in wind energy, solar energy, battery storage focused on Ireland, France, Finland, Sweden, Italy, Spain and the UK. [clarification needed]

Will Montenegro adopt a re-newable based district heating system?

Montenegro finalized the adoption of a complete package of updated energy labelling rulebooks, as incorporated into the Energy Community legal framework by the 2022 Ministerial Council. Zabljak municipality is exploring options for establishing a re-newable-based district heating system.

Is NTR a US company?

It spun these off into a separate company, Atlas Investments, and focused on wind energy in Ireland and the UK. In 2008, NTR purchased a controlling stake in Wind Capital Group of St. Louis, Missouri, U.S. The company exited the U.S. market in 2015 to "focus on Europe". [citation needed] NTR is an Irish public limited company.

Which energy projects have been subjected to an EIA in Montenegro?

Montenegro has not provided a list of energy projects that underwent screening and were subjected to an EIA. The development of the EIA, which should include an appropriate assessment for the Komarnica hydropower project, located within a candidate Emerald Site and the Dragisnica and Komarnica Nature Park, was delayed.

Does Montenegro have a national energy and climate plan?

Montenegro is still finalizing its draft National Energy and Climate Plan (NECP). Montenegro has not defined the 2030 climate target in its national legislation, nor in the draft NECP. It should align with the 2030 targets set by the Energy Community. There is a legal basis for the national inventory system.

Can Montenegro reduce energy demand?

Montenegro has great potential for reducing demand through more efficient energy use. According to IEA statistics, Montenegro's energy intensity has been falling slightly in recent years but is still more than twice that of the EU-28. Inefficient practices such as using electrical heaters for heating are widespread.
