

What is Oman Solar?

Oman Solar is a company that uses the latest technology to convert natural resources into electrical power through solar photovoltaic energy. This solution is reliable and suitable for remote applications in the region due to the nearly year-round availability of sunlight. At Oman Solar, we harness the power of the sun.

Why should you choose Oman solar?

At Oman Solar, we have latest technology by which we can use NATURAL RESOURCES and convert the NATURAL energy into POWER (ELECTRICAL ENERGY). The solar photovoltaic energy is a most viable solution for reliable and remote application in the region because of the availability of the sun for almost 365 days in the year.

Is solar energy a viable option in Oman?

Solar energy is a viable option in Oman given the vast unused land and available solar energy resources. It could not only cater to the growing need for energy diversification but also help in economic diversification in Oman.

Who owns the first utility scale solar plant in Oman?

The first utility scale solar plant in Oman, Amin IPP, is owned by Amin Renewable Energy Company. It has a total capacity of 125 MW and started commercial operation in Q2 2020.

One standard solar panel generates around 1.24 kilowatt-hours per square meter per day in an unshaded area, and various solar panel mounting systems offer design flexibility, aesthetic options, and increased solar power production. Every solar energy system must include either a roof racking or ground mounting system, plus its attachments.
