SYS TENIS FUTURE ENERGY TODAY

OneraSystems is mainly focusing on providing clean, efficient and reliable energy to the population of the Middle East, and today OneraSystems provides and compliments MEET with complete solar powered systems, for the Telecommunications, Oils and Utilities sectors as wells as any other fields that require their services, all while adopting the ...

Mission. Our mission is to develop and realize renewable energy projects regionally, and internationally. We are genuinely committed to bring the highest value to our various stakeholders: the shareholders, the customers, the employees and the community at large.

Abstract: Besides the main airborne ONERA SAR systems (SETHI and RAMSES-NG), the Radar Department has developed and has been using a compact radar payload dedicated to SAR applications embedded on a STEMME S10VT motorglider (BUSARD). Taking benefits from the large experience in low-size radar operation and specific digital ...

OneraSystems had PV systems that allow Telecom Applications to operate in areas where power quality and reliability are always in question, and sometimes not even available. Solar homes, Ambulance sites, Street lighting, Traffic Signs and Water Destination are all capable of running in rural and harsh environments, that's to the ingenuity of ...
