

Electricity in El Salvador - voltage and frequency. All power sockets in El Salvador provide a standard voltage of 115V with a standard frequency of 60Hz. You can use all your equipment in El Salvador if the outlet voltage in your own country is between 100V-127V. This is mostly the case in the US, Canada and countries in South America.

El Salvador's energy sector is largely focused on renewables. El Salvador is the largest producer of geothermal energy in Central America. Except for hydroelectric generation, which is almost totally owned and operated by the public company CEL (Comisi3n Hidroel3ctrica del R3o Lempa), the rest of the generation capacity is in private hands. With demand expected to grow at a rate ...
