By adopting solar energy, Citi Pharma Limited expects to achieve substantial cost savings, with anticipated annual savings exceeding 100 million rupees. The decision to transition to solar power reflects Citi Pharma Limited's proactive approach to embracing cleaner and more sustainable energy alternatives.

Pakistan's unstable electricity grid has driven a boom in adoption of renewable energy, led by solar. This sudden expansion in private renewables risks driving the national grid into a downward debt spiral. The Pakistan case study illustrates how energy transitions must be carefully managed, incorporating renewables through grid modernization.

Our mission is to make clean, renewable energy accessible to everyone, reducing dependence on fossil fuels and contributing to a greener, more sustainable future for Pakistan. At Solar City Pakistan, we pride ourselves on our commitment to quality and customer satisfaction.

Citi Pharma Ltd., a prominent player in Pakistan's pharmaceutical industry, has recently announced a significant shift in its operational strategy by transitioning to solar energy. This move is part of a broader initiative to enhance sustainability and reduce the environmental impact of its extensive manufacturing operations.

City Solar (pvt.) Ltd. is a multi dimensional solar energy company. Our expertise in renewable energy caters to the domestic, commercial, Industrial & agri sectors. Our strategic partnerships with major stakeholders in solar industry enable us to provide value added services to our clients.

Our mission is to make clean, renewable energy accessible to everyone, reducing dependence on fossil fuels and contributing to a greener, more sustainable future for Pakistan. At Solar City Pakistan, we pride ourselves on our commitment to ...

Pakistan's skyrocketing electricity prices have pushed cash-strapped households and businesses to find relief from rising costs and rolling blackouts by using low-cost Chinese solar panels....

Pakistan has grown its solar energy capacity by an astounding amount in a remarkably short space of time. The shock surge has given residents the power to survive blackouts, but it threatens to...
