

What is a solar PV project in Palau?

With a capacity of 15.3 MWp solar PV and 12.9 MWh BESS, the project supports Palau's goal of achieving a 45% renewable energy share by 2025. The project's total investment of USD 29 million contributes to Palau's energy independence, clean power generation, carbon emissions reduction, and local employment opportunities.

When will Solar Pacific finish its solar PV project in Palau?

It aims to finish its solar PV project in Palau and battery storage by April 2023. Solar Pacific's chairman Perez said that the project, which marks the group's first foray into overseas energy markets, is now at 65% completion. To help Palau achieve its renewable energy goal of 45% by 2025, the project will supply up to 23,000 MWh.

Where is Palau's first solar power plant located?

We're proud to have supported the establishment of Palau's first utility-scale solar power plant at Ngatpangon Babeldaob. energy storage system, was undertaken by Solar Pacific Pristine Power, a privately owned company.

What is Palau solar & battery storage?

The Palau solar and battery storage project not only bolsters the country's energy independence but also highlights the potential for renewable energy to power nations across the Pacific. As Palau paves the way, it inspires others to follow suit, driving the transition towards a greener and more sustainable world.

How will solar energy be produced in Palau?

Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage system facility. Extensive safeguards to protect Palau's pristine environment SPEC did not leave any stone unturned to protect the pristine Palau ecosystem.

What is the Palau project?

Mike Lichtenfeld, CEO of Solar Pacific, stated that "Our Palau Project creates a strong partnership between the governments of Palau via a long-term electricity supply agreement, with the Palau Public Utilities Corporation, and with Australia through project financing through the Australian Infrastructure Financing Facility for the Pacific."

Solar Pacific Energy Corporation is a renewable energy developer based in the Philippines and part of the Alternergy group. This investment is an example of the AIFFP's market-leading approach to infrastructure safeguards, financing, innovation, and quality. Indeed, the AIFFP's investment in Palau demonstrates that value for money can go
