Hybrid solar inverters offer the best of both worlds-on-grid and off-grid. If your solar generation is low, you can pull power from the grid. And when the grid is down, you can use your battery backup to power appliances! Unlike off-grid solar inverters, the hybrid solar inverters remain switched on at all times for an uninterrupted power supply.

The SH-RS inverters have a wide MPPT voltage operating range from 40V to 560V, while the more powerful 8 & 10KW units offer an impressive 4 MPPTs, enabling greater flexibility when designing solar arrays. The inverters are also equipped with advanced diagnostic tools, such as an IV curve scan, to identify faults or degradation issues in solar panels.
