

The National Assembly of Panama adopted Law 417, published on 27 December 2023, which revises Law 37 of 2013 and broadens the incentive framework for the solar power sector. New incentives include tax exemptions and import duty reliefs for all individuals and entities involved in the solar industry, covering equipment and materials ...

About 16 banks in the Panamanian square received training on photovoltaic solar energy and at least six have specific mechanisms to finance solar systems for the population "at a good price," including the Savings Bank, as explained by the official.

Incentives available for solar projects in Panama at present include an exemption from import tax, as well as the ITMBS (VAT) for the import or local purchases of equipment, parts or materials...

About 16 banks in the Panamanian square received training on photovoltaic solar energy and at least six have specific mechanisms to finance solar systems for the population "at a good price," including the Savings Bank, ...

After more than a year of growing pressure from Stand.earth and other environmental NGOs, Taiwan Semiconductor Manufacturing Company (TSMC) announced plans to accelerates its 100% renewable energy commitment by a decade, moving its target from 2050 to 2040, while also raising its 2030 target for company-wide renewable energy consumption ...

Italy's Enel SpA (BIT:ENEL) has commenced construction of a 26.24-MW solar park in Panama's province of Chiriqui. The company, through Enel Green Power Panama (EGPP), said today that the Esperanza photovoltaic (PV) solar plant is expected to be up and running in the first half of 2021.

Madre Vieja will consist of 68,220 solar panels and be able to generate 48.68 GWh of electricity per year, enough to offset over 12,574 tonnes of carbon dioxide (CO2) emissions annually. Together with the 13-MW Jaguito and the 26-MW Esperanza solar farms, Enel Green Power Panama (EGPP) has invested a total of USD 130 million (EUR 109.5m) in ...

The Panama Energy Center is proposing a more than 2,400-acre solar farm, that's going before the Lincoln Planning Commission. By Craig Allison Published : Dec. 2, 2024 at 2:13 PM CST | Updated ...

Abundant Sunlight: Panama enjoys a tropical climate with high solar irradiance levels year-round, making it an excellent location for solar energy projects. The country receives ample sunlight, providing optimal conditions for solar panels to ...
