

Does Finland have solar power?

There is plenty of solar energy available in Finland, and solar power is predicted to be one of the lowest-cost electricity production methods in the coming years.

Why should you choose solar Finland?

Solar Finland and its subsidiaries with strong long-term background are experts in all aspects of solar energy. Our extensive know-how and experience of over 40 years make it possible to develop in different areas making our products and services competitive in the solar energy markets both domestically and abroad.

Who makes Salo solar panels?

Salo Solar designs, sells and builds comprehensive turnkey solar electricity systems. Salo Tech manufactures and sells high-quality Finnish SALO solar panels. Salo Automation designs and builds production lines and machines meant for the production of solar panels. Salo Energy builds solar parks and invests in local solar electricity.

Where should I buy solar panels?

We recommend acquiring your panels from a reliable company that is sure to remain in business for the entire lifecycle of your solar power system. A good salesperson will answer any use-phase questions you may have, handle your warranty issues, if necessary, and enable you to expand your system and add new products to it.

Why should I buy a solar panel package?

With the growing appeal of solar power, solar panels also increase the value of your home. Helen also offers solar power solutions to businesses and housing companies. Fill out the form below to let us know you are interested in buying a solar panel package. Submit your contact details and we will contact you as soon as possible.
