

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Does Timor-Leste have electricity?

Timor-Leste has rapidly expanded electricity access to more than 83 per cent of the population but the country has yet to achieve energy security.<sup>1</sup> Consumer costs, even with government subsidy, remain high and outages are common. In addition, most of Timor-Leste's electricity is generated through costly and polluting diesel generators.

Does Timor-Leste report to the quarterly public sector debt database?

While Timor-Leste does not report to the Quarterly Public Sector Debt database jointly developed by the World Bank and IMF, the compilers have made progress in the compilation and dissemination of Public Sector Debt Statistics for the central government which currently comprises external loans.

Does Timor Leste have fixed broadband?

Fixed broadband penetration in Timor Leste remains extremely low mainly due to a limited number of fixed lines as well as the dominance of the mobile platform. However, the market has grown strongly over the past five years from a very small base. Timor Telecom was contracted for the supply, installation and configuration of a fibre-optic network.

Where is Timor-Leste located?

Timor-Leste, or East Timor, is situated in the Indonesian archipelago in Southeast Asia. Its 15,000 km<sup>2</sup> area encompasses the eastern half of the mountainous island of Timor, along with the small islands of Atauro and Jaco and the exclave of Oe'cussi (district capital: Pante Makasar) surrounded by West Timor, Indonesia (Fig. 1).

What challenges does Timor-Leste face?

Timor-Leste faces large and pressing development challenges. Despite notable socio-economic achievements since gaining independence in 2002, Timor-Leste remains a fragile post-conflict state with weak human and institutional capacity, large infrastructure gaps, and high dependence on revenues from the Petroleum Fund.

East Timor solar project, Timor Leste. In cooperation with our local partner, GSOL Energy technicians have installed a 300kWp on-grid solar PV system, which covers 50% of the annual electricity consumption of the UN House, and is expected to reduce CO<sub>2</sub> emissions by ...
