With Bhutan ratifying the Framework Agreement and becoming a full member of the International Solar Alliance (ISA) in October 2022, the momentum of collaboration between the ISA and the Royal Government of Bhutan has picked up pace through implementation of various initiatives supported by the ISA.

The construction of the first Decentralized Solar PV system of 80 KiloWatt (kW) in the rural community of Aja Nye will now benefit 34 households who have lived without electricity till date including thousands of pilgrims who visit annually, ...

The commissioning and inauguration of the 180kW grid-tied ground mounted solar photo-voltaic power plant marks the start of Bhutan's investment in grid-tied solar energy as a viable alternative energy source in the face of soaring domestic demand and climate change.

With Bhutan ratifying the Framework Agreement and becoming a full member of the International Solar Alliance (ISA) in October 2022, the momentum of collaboration between the ISA and the ...

The Solar Plant in Rubesa is one such initiative which takes Bhutan a step closer to achieving energy security through a diversified and sustainable energy supply mix. The project particularly demonstrates viability of solar power plants on a utility scale.

The project included the installation of Rooftop Solar PV at Centenary Farmer's Market (CFM) and Ground Mounted Solar Panels at Dechencholing in Thimphu. The first phase of the project completed in May-June, last year.

Bhutan Solar Initiative Project (BSIP) set up under Royal Command has implemented two Solar PV Projects in Thimphu. 250kW Rooftop Centenary Farmers Market (CMF) and 500kW Ground mounted at Dechencholing.

The construction of the first Decentralized Solar PV system of 80 KiloWatt (kW) in the rural community of Aja Nye will now benefit 34 households who have lived without electricity till date including thousands of pilgrims who visit annually, states the joint press release.
