

SERVODAY"s Alfalfa Pellet Plant in American Samoa converts alfalfa into high-energy pellets, providing a clean, cost-effective fuel solution with efficient processing for biomass boilers and ...

Our Mission is to produce Innovative Green Energy Solutions that will help in improving the environment & are economical to use. At PESPL, we understand the growing concerns over both climate change and the fast depleting ...

Discover the power of renewable energy with our premium wood pellets and biomass fuels. We are dedicated to providing sustainable energy solutions that help reduce environmental impact while ensuring high efficiency and reliability.

Our Mission is to produce Innovative Green Energy Solutions that will help in improving the environment & are economical to use. At PESPL, we understand the growing concerns over both climate change and the fast depleting reserves of fossil fuels.

It has been set with core objective of manufacturing biomass based pellets and systems that use pellets for generating energy and set up EUROPEA" S Best Technology Asia"s Largest Biomass Pellet Fuel Plant with capacity of delivering 1,20,000 tons per annum.

Benefits include reduced greenhouse gas emissions, cost savings on fuel, and efficient energy production. With reliable performance and minimal maintenance, this advanced plant supports both residential and commercial heating applications with ...
