

Does Peru have a Bess regulation?

Peru has no existing BESS regulation and is currently evaluating how to move forward with battery storage projects. In fact, in January 2024, Peru's energy and mining investment regulator, Osinergmin, opened a request for a proposal for a study on energy storage.

Should Bess storage be paired with large solar assets?

The Dominican Republic's National Energy Commission (CNE) issued a resolution in February 2023 that requires BESS storage to be paired with large solar assets. However, the remuneration is not yet clear and developers are concerned about interconnection delays for their BESS assets.

Will Chile pay a capacity payment for energy storage projects in 2024?

Chile passed an energy storage and electromobility bill in late 2022, making stand-alone storage projects profitable for operators. However, the market is still awaiting new rules regarding a capacity payment for storage projects--expected in 2024.

Global energy storage group NHOA, formerly Engie EPS, has been awarded a 30MWh battery energy storage system (BESS) to be developed in Peru. Engie Energ&#237;a Per&#250; will install the BESS at the site of the 800MW Chilca thermal power plant in Peru, where it will deliver primary frequency regulation services for the country's grid.

The battery-based energy storage system to be installed in the 800MW Chilca power plant will improve the Peruvian grid stability by providing Primary Frequency Regulation services, bringing economic benefits while ...

El sistema de almacenamiento Chilca-BESS de ENGIE cuenta con una potencia instalada de 26.5 MW que lo convierte en el m&#225;s grande de su tipo en el Per&#250;. Este sistema de bater&#237;as de gran capacidad demand&#243; una inversi&#243;n total de ...
