Phelan Energy Group is a world leader in low-cost energy development with an exclusive focus on Solar PV. PEG commenced operation in South Africa 10 years ago, and is led by a dynamic international development team of 90 executives, with 12 different nationalities.

At Phelan Green Energy, we pioneer innovative battery solutions to drive a sustainable future. Our commitment to sustainability fuels our pursuit of cutting-edge technology, empowering communities, and industries to embrace renewable energy.

Phelan Green Energy, a renewables developer owned by an Irish family but based in South Africa, on Friday announced plans for a USD-2.4-billion (EUR 2.21bn) green ammonia investment in Peru in parallel with the discontinuation of hydrogen projects in Chile, Egypt, and Spain.

At Phelan Green Energy, Paschal Phelan firmly believes that the company's green energy strategy embodies a holistic vision that harnesses both solar and hydrogen technologies. Its approach leverages the sun's energy to split hydrogen molecules from water, capturing hydrogen as a base gas for carbon-free products like green ammonia.
