

How much solar energy does the Philippines use?

Statistics indicate that less than 1% of the country's total energy consumption comes from solar sources. The Philippines, despite its abundant sunlight, only utilizes a fraction of its solar energy potential.

Is the Philippines launching a solar power and battery storage project?

Image Credit: PIA Manila: In a bold move to ramp up its renewable energy ambitions, the Philippines launched a \$3.4-billion solar power and battery storage project has been kicked off north of the capital.

How much will solar electricity cost in Luzon in 20 years?

As soon as the Energy Regulatory Commission (ERC) approves the FiT, solar electricity prices will stay pegged at 0.3 centavos for 20 years, compared with how the ERC-approved rates for Luzon increased by 11.3 per cent from 2003-2010, or by P1.58 per kWh, due to pass-through fuel charges.

Why should solar energy be a part of the Philippine energy mix?

This policy brief argues why solar energy should become an important part of the Philippine energy mix for economic, energy and environmental reasons. Harnessing solar power is one way to decrease dependence on the increasing and volatile prices of fossil fuels. Solar energy provides an immediate solution to the country's energy woes.

Are solar power plants coming to the Philippines?

Solar power plants are coming online across the entirety of the Philippines. Some models show that some major hubs may be able to source half of their energy needs from renewable energies. The low operating prices and potential for high energy creation will drive significant increases in solar capacity over the coming years.

Will solar energy be integrated into the Philippine power generation mix?

Since the publication of the first edition in June 2012 an important regulatory step was finally taken on the path towards integrating solar energy into the Philippine power generation mix with the approval of the initial Feed-in-Tariffs by ERC on July 27.

Varying Watt-peak Solar Panels in Wattsun Solarkit. The Wattsun Solarkit is available in different sets with varying Watt-peak (Wp).
