

Danish renewable energy company Ørsted and US utility Salt River Project (SRP) have confirmed that their 300MW solar-plus-storage project in Pinal County, Arizona, has commenced operations.

Nighthawk, a 300MW battery storage facility planned for Poway, California, is being developed by Tenaska in collaboration with Arevon. The facility, which will use Tesla Megapack, is pending permitting approvals, but is ...

Aerial view of the pair's Black Hillock project, currently in construction. Image: Wartsila. The first energy storage asset built using Wärtsilä's new Quantum High Energy battery energy storage system (BESS) solution ...

Gautam Adani is accused of allegedly paying US\$250 million in bribes to Indian officials to secure solar energy contracts. Floating solar to reach 77GW by 2033, led by APAC region November 20, 2024

At 300MW / 1,200MWh, the BESS is considerably larger than the 250MW / 250MWh Gateway Energy Storage project brought online earlier this year by LS Power, also in California. Not only that, but Phase 2 of Vistra's ...

The project consists of a 300 MWac solar project coupled with a 600 MWh battery energy storage system (BESS). It is expected to begin the supply of electricity to the Alliance's customers in...

Power project developer Ncondezi Energy has launched a feasibility study for a 300MW solar PV plant with battery storage, in Mozambique, Africa. The project will be located within Ncondezi's 25,000-hectare ...

The project will pair 300MW solar PV generation with 300MW/1,200MWh BESS. Image: Ørsted. Social media and data giant Meta has signed a power purchase agreement (PPA) with US utility Salt River Project ...

The 2016 McCoy Solar Energy Project is a 250-megawatt (MWAC) photovoltaic power plant near the city of Blythe in Riverside County, California. It occupies about 2,300 acres of mostly public land in the Mojave Desert. With a 230 MW ...

The Slate project is Recurrent Energy's largest solar-plus-storage project. Its U.S. storage pipeline currently stands at more than 4 GWh, the company said. Rural utilities add solar to support growth

The California Independent System Operator (CAISO), First Solar, and the National Renewable Energy Laboratory (NREL) conducted a demonstration project on a large utility-scale ...

Smart Gynesh Energy, Smart Energy Group and Erseka Solar were selected for two lots: 40.3 MW at EUR 53.53 per MWh and 20.2 MW at EUR 56.28 per MWh. JGA consulting, Swiss Approval Albania, Eterna and Gr ...
