Photovoltaic inverter sales promotion model

Can sales and installation companies enhance solar photovoltaic adoption?

This qualitative study based on twenty semi-structured interviews contributes to the existing knowledge by exploring how sales and installation companies can enhance solar photovoltaic adoption transforming customer interactions and engagement practices, which is a key element of a company's business model.

How can a market-centric business model help solar PV companies?

The disruptive nature of solar PV technology, limited awareness and high financial requirements often make solar PV disadvantaged compared with its competition,. A market-centric business model can help solar PV companies address consumers' concerns while offering solutions to enhance its adoption.

How did the PV inverter market perform in 2022?

Overall, global PV inverter shipments saw 48% growthyear-over-year in 2022, with an additional 100 GW shipped from 2021. In 2022, the PV inverter industry saw a renewed increase in shipments as the pandemic-related semiconductor chip shortage improved. Huawei and Sungrow covered 52% of the market cumulatively - an increase from 44% in 2021.

Which inverter vendors dominated the global photovoltaic market in 2022?

Huaweiand Sungrow remained market leaders in 2022, as they have done since 2015, while AISWEI and SOFAR entered the top 10 ranking. The top 10 global photovoltaic (PV) inverter vendors accounted for 86% of the market - an increase of 4% year-over-year, whereas the top 3 players captured 60% of the market share for shipments in 2022.

How can a company promote solar PV technology?

A company's ability to devise and deliver value offerings that match customers' needs is vital in encouraging the adoption of solar PV technology. The extent to which a company can address market needs and deliver value often depends on the business model it has adopted.

How do community business models affect distributed solar PV?

Huijben and Verbong identified that business models providing different ownership structures facilitated the development and growth of distributed solar PV. Amus suggested that adopting a community business model addressed infrastructural hindrances, making it cost-efficient for consumers to utilise solar PV.

1.6 Business Model 1.7 Industry Barrier 2. Global Photovoltaic Inverter Market 2.1 Status Quo 2.1.1 Market Size 2.1.2 Market Structure 2.1.3 Price 2.2 Supply & Demand ... China's PV ...

At present, photovoltaic (PV) systems are taking a leading role as a solar-based renewable energy source (RES) because of their unique advantages. This trend is being increased especially in grid-connected ...
