Do you need a solar power lease agreement?

A solar power lease agreement is a good option if you want to start using solar energy but don't have the initial capital to install the system. In these cases, it's the company's responsibility to design, install, and maintain the entire system. The client will then pay a fixed monthly rate for the power produced by the system.

What is the difference between a PPA and a solar lease agreement?

In a PPA, you buy the net amount of solar power you use from the meter at a fixed rate per kWh. However, with a solar lease agreement, you generally pay a fixed monthly amount. That monthly amount allows you to use all the output energy the solar equipment generates.
