

The Clipsal Weatherproof Enclosure combines the convenience of a Residual Current Device (RCD) with Neon Indication Outlet, featuring a 25A rating and a 30mA sensitivity level for enhanced electrical safety. With a robust design suitable for outdoor use, this enclosure is engineered to withstand various weather conditions.

Service enclosures are used for industrial, commercial, residential and infra-structure related applications. Electrical circuit boards are mounted on mounting plates within the control panel and protected against dust and water by virtue of using gasketed doors, thereby providing an Ingress Protection of IP66.
