

Peak Shaving: Pixii Home can help smooth out your grid usage by delivering stored energy during high load when tariffs are high, this will reduce the cost of high voltage charges or extra peak tariffs. **Arbitrage:** With Pixii Home you can ...

The PowerBase is a robust energy storage system built on a steel frame with the footprint of a standard ISO 20-foot container. Pre-wired and pre-configured, it minimizes installation costs and delivery time, accommodating up to 12 Pixii ...

Pixii has delivered Malaysia's first energy storage system for electric vehicle charging stations. This is Pixii's first significant order in Southeast Asia, a region with substantial growth potential. The first station was inaugurated by Malaysia's minister of works, Dato" Sri Alexander Nanta Linggi, as well as Norway's ambassador to ...

Pixii's battery energy storage system offers a range of advanced functions, including voltage support, phase balancing, and active and reactive power compensation. The BESS is modular and easy to install, with hot swappable modules for easy maintenance. It also comes with remote monitoring and a range of services and support, including ...

Unlock the value of your battery energy storage system and monetize your system's flexibility by offering available capacity to ancillary services like FFR, FCR, standard ramp FCAS services and more. AC back-up. Secure energy independency during power outages or grid restrictions.

Are you interested in learning more about energy storage for Micro grid & off-grid? Please share your contact details and we will keep you posted. Pixii AS is committed to protecting and respecting your privacy, and we'll only use your personal information to administer your account and to provide the products and services you requested from ...

Smart energy storage for apartment buildings. Get more out of your solar investment and enable fast EV charging with Pixii's smart battery energy storage system, reducing energy cost and making your building greener. The Pixii PowerShaper is fully Integrated, and connects with all new or existing solar panels, allowing you to store excess ...

Pixii's advanced battery-based energy storage solutions seamlessly integrate renewable energy into the grid, optimising energy use and reducing reliance on fossil fuels. With innovative solutions ranging from 3 kW to 1 MW, Pixii serves diverse markets, including distribution system operators (DSO), commercial and industrial (C& I), EV charging ...

The PowerShaper Indoor is a modular and scalable energy storage solution designed for indoor applications. It delivers up to 50kW of power and 50kWh of LFP batteries, enabling cost-saving features like time shifting, peak shaving, and demand charge reduction. Pixii's BESS supports a dynamic value stack, maximizing cost savings while ...

At the core of all Battery Energy Storage Systems (BESS) from Pixii you find our bi-directional power conversion unit called the PixiiBox. Bi-directionality means that the energy flow can go both ways, from grid to the battery and back to the grid. It connects to a range of energy sources, like solar panels, the grid, generators, and more.

Optimize your energy storage and consumption with smart functions like peak shaving, arbitrage, and PV self-consumption, reducing costs while increasing energy efficiency. Pixii Home comes with a 10kW capacity, easily upgradeable to 20kWh with the addition of two batteries and three more PixiiBoxes.

It can be equipped with up to 50kW of power conversion and 288kWh of energy storage capacity. *Note: PowerShaper XL Indoor is not yet released. PowerShaper XL Indoor PowerBase XL . PowerBase XL is a powerhouse of energy storage, prewired and preconfigured on a steel frame for transport and deployment with batteries pre-installed.

Pixii Energy Storage, Oslo, Norway. 307 likes · 101 talking about this. Pixii is a company providing smart, modular and scalable energy storage solutions... Pixii is a company providing smart, modular and scalable energy storage solutions to improve utilization of intermittent...

Energy-Storage.news" publisher Solar Media will host the eighth annual Energy Storage Summit EU in London this week on Wednesday 22 and Thursday 23 February 2023. This year it is in a larger venue, bringing together Europe's leading investors, policymakers, developers, utilities, energy buyers and service providers all in one place.

Pixii leads the way in delivering innovative Battery Energy Storage Systems (BESS), empowering a secure and sustainable energy future. With headquartered in Norway, we combine decades of expertise in power conversion, modular design, and advanced energy management to address the evolving demands of the energy storage sector.

Peak Shaving: Pixii Home can help smooth out your grid usage by delivering stored energy during high load when tariffs are high, this will reduce the cost of high voltage charges or extra peak tariffs. Arbitrage: With Pixii Home you can store energy from the grid when the cost is low and use the energy when tariffs are high.
