

Pixii Home enables homeowners to get more out of solar energy, cut electricity bills with smart energy saving functionality, and generate income by renting out battery capacity to support the local grid through ancillary services like FFR, FCR and FCAS, bringing energy independence within reach.

Pixii Home is a modular energy storage which allows you to add more capacity as your energy need increases. We are very proud of our Nordic roots where powerful innovation is paired with a functional and clean exterior design and our user-friendly app to control, manage and monitor your energy storage. The base model comes with 10kWh

The Pixii Home battery has a capacity of up to 20 kWh. It can cover a significant part of your home's energy needs, especially for smaller to medium-sized households. A 20 kWh Pixii Home battery, when used together with solar panels, can significantly reduce dependence on the grid and provide extra power during periods when electricity cost is ...

Pixii Home combines the simplicity and elegance of Nordic design and the toughness of Viking endurance. It is designed for outdoor installation with an industrial- strength metal casing and is backed up by a 10-year warranty for enduring reliability. Begin with 10 kWh and expand up to 20 kWh as your energy demands or family grows.

Skapar en egen tr&#229;d f&#246;r Pixii Home s&#229; vi &#229;tminstone var ett par tre stycken som diskuterade detta i Tibber Home tr&#229;den. Jag ska f&#229; mitt 10 kW/kWh batteri installerat i morgon och f&#229;r Greenely som leverant&#246;r from 1/11.

The Pixii Battery Energy Storage System is designed to be easy to install, quick to deploy, and requires minimal maintenance. With its innovative power architecture, all-in-one cabinets, and intuitive web app, the Pixii BESS is the perfect solution for anyone looking for a reliable and efficient energy storage system.

With cutting-edge technology, the Pixii modular energy storage solution gives you a wide range of functions, allowing you to unleash your growth potential. Learn more We are the first generation to feel the sting of climate change, and we are the last generation that can do something about it
