

When is release by Scatec launching solar plants in Cameroon?

22 September 2023, Cameroon: Today, Release by Scatec celebrates the inauguration of the solar plants in Cameroon. Release entered into a lease agreement with ENEO, an electricity company, in 2021 to deliver two solar hybrid and battery storage plants that have a combined capacity of 36MW solar and 20MW/19MWh of storage.

Where are Eneo solar & battery storage plants located in Cameroon?

Release entered into a lease agreement with ENEO, an electricity company, in 2021 to deliver two solar hybrid and battery storage plants that have a combined capacity of 36MW solar and 20MW/19MWh of storage. The plants are located in Maroua and Guider, in the Grand-North Cameroon.

Are solar power plants generating electricity in Cameroon?

The solar power plants have been completed in phases generating electricity throughout 2022 and are now fully completed. There have been reports of significant improvements of electricity supply in the northern parts of Cameroon. Regions that fall under the Northern Interconnected Network were prone to experiencing power outages.

With a focus on delivering solar solutions that are easy to install and use, Deeky Energies has developed a range of plug-and-play solar products. These products, including Solar Home and Pico Solar Systems, are tailored to suit every budget and need, based on their in-depth understanding of the local market in Cameroon.

In Cameroon, the 36 MW of solar generation capacity and 20 MW/19 MWh of battery storage that will be added at the two sites will be leased to power company ENEO, which is controlled by London ...

13 December 2021: Release by Scatec has entered into a lease agreement with electricity company ENEO in Cameroon to deliver two hybrid solar and storage plants totalling 36 MW ...

Release completed the already existing solar plants in Maroua and Guider in Cameroon (35.8 MW solar and 19 MWh BESS) in September 2023, and is now adding 28.6 MW of solar and 19.2 MWh of battery storage.
