Advanced Power Solutions (APS) is a leading producer of premium quality batteries, with production site located in Poland: Gniezno. Our mission is to provide easy, safe, and sustainable mobile energy solutions. We aim to create a powerhouse of brands that improve consumers' daily lives, all while ensuring environmentally responsible production.

We offer comprehensive solutions to help our clients make the most of the transition to renewables. We are also an independent power producer: we own and operate PV installations around the world. As part of Photon Energy Group, we are committed to our shared vision of a world where energy is clean, safe and accessible to everyone.

To many this will come as a surprise, but there is an inexorability in Poland's impending rise to superpower status in Europe. This also will mark the final death throes of the 1945 Yalta Conference and its "Tribute Act" -- Putin's plan to revive Russian domination throughout Eastern Europe, all the way to the German border.

Advanced Power Solutions Poland S.A is a producer of premium quality batteries, with a production site located in Gniezno, Poland. The company offers a wide range of alkaline, zinc carbon, and specialty batteries, as well as Ni-MH rechargeable batteries. They also provide a variety of chargers for their batteries.
