This amendment introduces comprehensive solutions for the operation and development of energy storage systems in Poland. On 24 November 2020, the Government has adopted a draft amendment to the Energy Law Act, which contains a number of regulations concerning energy storage systems.

In an interview with four national energy storage association representatives from Europe in Vol.27 of our quarterly journal PV Tech Power, Barbra Adamska of Polish association PSME said that while energy storage has to date been limited to a few "experimental investments" in Poland, the changes that are imminent for the regulatory space ...

The de-rating factor for energy storage bidding into the next capacity market auction in Poland has been slashed from 95% in the last two previous auctions to 61%, Jan Kloczko, deputy commercial director of independent power producer (IPP) Greenvolt Power said on ...

The European Commission has approved a EUR1.2 billion Polish initiative aimed at boosting investments in electricity storage facilities. The scheme is part of Poland's efforts to ...

Polish Energy Storage Association CHAPTER 1 General Provisions ¶1 The Association goes under the name of the "Polish Energy Storage Association", hereinafter referred to as the "Association".
¶2 1. The Association shall have the right to use its name abbreviated as: PESA. 2.

Polish Energy Storage Association - together we are building a modern, solid and secure electric power system in Poland. We are integrating innovative companies and organisations involved in developing the power sector and environment protection, we are promoting and supporting energy storage facilities.

Harmonisation of definitions of "energy storage" and " energy storage systems" in the draft solves interpretation problems stemming from inconsistencies in these definitions across different legal acts. Redefinition of an "end user" made it possible to exclude energy used for energy storage purposes from the end consumption category.
