

What is the best portable solar charger?

Of the smaller panels, the BigBlue SolarPowa 28 is the top dog of portable solar chargers. The BigBlue is impressively efficient in its charging capabilities and performed the best in all our testing of portable solar panels. This model is the fastest portable model we tested, and it delivers consistent charging even as conditions change.

Are portable solar chargers good for camping?

Portable solar chargers balance packability and charging capacity. Solar panels for camping are generally larger than portable models. They also have a higher capacity to convert sunlight into energy. The chart below shows the overall score for each model we tested.

How much does a portable solar charger cost?

For perspective, the \$150 BioLite Solar Panel 10+ equates to \$15 per watt. Thus, the value proposition for portable solar chargers involves focusing on how much power you get for the price. Relatively speaking, then, we see that the cost of a solar system doesn't need to be astronomical.

How many solar chargers are there?

I called in 13 different solar chargers from nine different manufacturers for testing. The main criteria was that it be a portable panel that you can use to charge a small electronic device, like a smartphone or a tablet, without the need for a power bank as an intermediary.

What is a solar power charger?

There's a lot to understand about solar power chargers, but at their heart, a small solar panel consists of several photovoltaic cells grouped together to absorb some of the sun's energy and convert it into an electric charge that you can use to charge electronics.

Are portable solar chargers a viable way to provide electricity outdoors?

Thanks to efficiency advances and cost decreases in solar cells, portable solar chargers are finally proving to be a viable means of providing electricity outdoors. A backcountry user might carry a smartphone, GoPros, headlamp, tablet, camera, headphones, and PLB or GPS devices.

How We Test Portable Solar Chargers. We've been testing portable solar chargers and panels for years and have put well over 100 individual products through our comprehensive testing process. With each new round of ...
