

The new solar farm, named Baco, will be located in Chiriqui province on the west coast of Panama. Just next to the Baco site is Enel Green Power's 31-MW Madre Vieja solar farm, currently under construction. Some three kilometres (1.86 miles) away, the renewables firm has Esperanza, Caldera and Sol de David solar plants in operation.

Sol de David solar farm (Parque Solar Sol de David) is an operating solar photovoltaic (PV) farm in Distrito Barro Colorado, Chiriquí, Panama. Project Details Table 1: Phase-level project details for Sol de David solar farm

Madre Vieja will consist of 68,220 solar panels and be able to generate 48.68 GWh of electricity per year, enough to offset over 12,574 tonnes of carbon dioxide (CO₂) emissions annually. Together with the 13-MW Jaguito and the 26-MW Esperanza solar farms, Enel Green Power Panama (EGPP) has invested a total of USD 130 million (EUR 109.5m) in ...

Esperanza Solar PV Farm is a ground-mounted solar project which is spread over an area of 40 hectares. The project generates 39.46GWh electricity thereby offsetting 23,600t of carbon dioxide emissions (CO₂) a year.

Find solar panel locations in Panama through our Panama solar farm map. Analyze the main characteristics of solar farms in this country, sort these by capacity, panels area and landscape area. Discover the largest solar farms in Panama and find solar farms near you.
