

We produce high-quality structural solutions for photovoltaic projects with intelligent and tailored designs, being the ideal basis for your solar energy projects. CATALOGUE -> AERODYNAMIC SYSTEMS

ANCHORED SYSTEMS. OMNIA/ACE V1. The Omnia/Ace V1 system is a system with an angle of inclination suitable for all regular flat surfaces or those with imperfections, slopes, obstacles such as air conditioning ducts, pipes, etc. Thanks to the modularity of the components and the ease of installation, the system can be installed on any flat roof.

Built on the many years of experience of its engineers and the use of state-of-the-art machinery, Ralux Solar® offers state-of-the-art technical solutions for all residential, commercial and utility ...

The Upper + Lower system is the ideal solution for the installation of photovoltaic panels arranged horizontally with an inclination of 8°;. Through an innovative adjustment system for the upper component, the system allows it to be installed with all photovoltaic panels on the market in full compliance with the manufacturer's manual.

AERODIN®/MICOS. AEROALTO DUO. El sistema se puede utilizar tanto para orientar los paneles hacia el sur, como para una configuración este-oeste. También existen alfombras de goma Epdm para instalaciones en cubiertas con revestimiento epoxico o TPO que permiten mantener el revestimiento intacto incluso en el caso de contrapesos considerables.

Built on the many years of experience of its engineers and the use of state-of-the-art machinery, Ralux Solar® offers state-of-the-art technical solutions for all residential, commercial and utility scale installations.

We produce high-quality structural solutions for photovoltaic projects with intelligent and tailored designs, being the ideal basis for your solar energy projects. CATALOGUE -> ...

El Microrail es la solución ideal para instalaciones en lámina trapezoidal con una distancia cercana entre las crestas. De hecho, este sistema se fija directamente a la cubierta del techo, reduciendo al máximo los componentes y haciendo que la instalación de todo el sistema sea muy práctica y rápida.

Ralux Solar®; un produttore italiano di strutture di montaggio per impianti fotovoltaici con presenza in Italia, Stati Uniti, Messico, Colombia e Repubblica Dominicana, consolidata grazie all'esperienza pluriennale dei suoi ingegneri e all'utilizzo di macchinari di ultima generazione. ... RALUX SOLAR RACKING SYSTEMS. produce soluzioni di ...

Ralux Solar racking systems cuenta con una gran variedad de elementos y sistemas de montaje para paneles solares que se ajustan a la medida de sus necesidades, espacio y ubicación. Estos son los temas mas importantes a tener en cuenta: Al elegir las estructuras para tu instalación solar, es importante considerar factores como la capacidad de ...

Participation of our structures for solar panels and energy generated in projects installed around the world. Pieces meticulously designed and adaptable to the needs of each solar project. ... RALUX. SOLAR RACKING SYSTEMS. We produce high-quality structural solutions for photovoltaic projects with intelligent and tailored designs, being the ...

Ralux Solar® es un fabricante italiano de estructuras de montaje para proyectos fotovoltaicos con importante presencia en Italia, Estados Unidos, México, Colombia y República Dominicana. ... RALUX SOLAR RACKING SYSTEMS. produce soluciones de estructuras para fotovoltaico de alta calidad y con un diseño inteligente para la industria de las ...
