

Do I need a power adapter when traveling to Israel?

If you are traveling to Israel with electronic devices from a country with a different voltage or frequency, you will need to use a power adapter and possibly a voltage converter to ensure safe and proper operation of your devices. This Universal Travel Adapter is a must-have for any globetrotter, offering unparalleled flexibility and ease of use.

Do you need a plug for a travel appliance in Israel?

Therefore, most visitors coming from these areas should not encounter any problems using their travel appliances, with the possible exception of needing an adapter plug so that their appliance can fit into an Israeli type outlet. A sample of an Israeli outlet and plug. Israel uses what is called a "H" type plug.

What type of power plug is used in Israel?

In Israel, power plugs and sockets (outlets) of type C and type H are used. The standard voltage is 230 V at a frequency of 50 Hz. Israel is a country with a rich history and culture, offering visitors a unique blend of ancient sites, bustling cities, and stunning natural landscapes.

Can I use a 110V outlet in Israel?

Type H outlets (sockets) are so shaped as to accommodate type C plugs as well. Visitors coming from North America, Mexico, Jamaica, Cuba, and other countries using 110V appliances, will most probably have to prepare a few things before they will be able to use their appliances in Israel. But first there is one thing that needs to be mentioned.
