

What are the benefits of solar power in the Cayman Islands?

Supplies sufficient power to Caribbean Utilities Company, Ltd. to serve 1,800 homes in the Cayman Islands. Reduces greenhouse gas emissions by 7,900 tons of CO₂ per year. Serves as the country's only utility-scale solar project, providing renewable energy to the grid's peak load of 110 MW.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

What is the first commercial solar project in Cayman?

The 20 acre 5MW Solar Farm located in Bodden Town is the first commercial solar project in Cayman. Completed in 2017, this solar farm was also the first Independent Power Producer (IPP) in Grand Cayman, selling electricity to CUC through a Power Purchase Agreement (PPA).

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

Who produces electricity in the Cayman Islands?

Electricity in the Cayman Islands is produced by the Caribbean Utilities Company, Ltd, which relies on imported diesel fuels. Caribbean Utilities Company, Ltd has 17 diesel units, one gas turbine, and two steam turbines to produce electricity. CUC generating unit boasts of 161 MW.

How can the Cayman Islands build climate resilience?

With a target of 70 percent renewable energy by 2037, the Cayman Islands is seeking to build climate resilience by purchasing clean energy for its electricity supply. The country established its first utility-scale solar project in 2017 through a power purchase agreement with renewable energy generated from the Bodden Town Solar Farm.

Affordable Solar Cayman Ltd. offers solar power consulting and systems installations in Cayman Islands. We provide services to commercial and residential projects, including CORE program ...

Affordable Solar Cayman Ltd. offers solar power consulting and systems installations in Cayman Islands. We provide services to commercial and residential projects, including CORE program and off-grid solar systems, and ...

Affordable Solar are solar specialists that provide solar power consulting and systems installations in the Cayman Islands. They provide a wide range of services to commercial and residential projects, including the CORE programme and off-grid solar systems, and solar heating solutions for water (laundry, bathing, etc.).

Supplies sufficient power to Caribbean Utilities Company, Ltd. to serve 1,800 homes in the Cayman Islands. Reduces greenhouse gas emissions by 7,900 tons of CO₂ per year. Serves as the country's only utility-scale solar project, ...

Solar power is a trusted option for renewable energy and in the long run can reduce your electricity bill. Solar panels can be installed on residential and commercial properties. The companies below are professional solar panel installers who design and install solar systems to meet the Cayman building code.

Power your home and business with low-profile, durable solar panels from Heliene and Hyundai. Enjoy decades of clean energy generation with minimalist aesthetics. Upgrade your electrical infrastructure with the Micro-Air Easystart system .

Solar Energy Now.
